Introducing the time saving SCO-2080 varifocal lens Bullet camera from Samsung

Published on September 9, 2010 in CCTV. 0 Comments

The recently introduced SCO-2080 is set to become extremely popular among CCTV installers.

Supplied pre-built into a compact IP66 rated housing and varifocal lens, the SCO-2080 will reduce installation costs by negating the need to spend time fitting external housings. [Continue reading...](#)

Optex Aims To Keep Homeowners' Security Fit for Purpose

Published on August 2, 2010 in Security. 0 Comments

Optex Europe, leader in detection technology, has launched the FIT series of compact outdoor detectors, suitable for any outdoor area in the home, following a successful preview at IFSEC.

Designed with residential properties in mind, Paul Nicholas, Divisional Manager for Optex Europe believes there is scope for such a discreet detector: "The FIT series is unlike any other detector on the market, designed solely for outdoor spaces around the home that could be vulnerable to break-ins or vandalism," he says. [Continue reading...](#)

New Venture Brings Bavak Proven Vehicle Access Control Technology to the UK

Published on August 2, 2010 in Barriers and Security. 0 Comments

A new joint venture between Bavak BV and ParkSecure has been launched to bring a new range of perimeter security and access control technologies and specialist support services to installers and end-users throughout the UK and Ireland.

The Dutch security group Bavak BV already has a large installed-base Europe-wide, with gates, barriers and blockers protecting a number of high profile military and government sites. [Continue reading...](#)
